

Summary of APhA video series **Pharmacists & Healthcare Reform: Insights & Opportunities**

To help pharmacists better understand the effects of Congress' overhaul of the U.S. healthcare system, APhA, with support from Boehringer Ingelheim Pharmaceuticals, Inc., has launched a video series explaining The Patient Protection and Affordable Care Act of 2010.

> [View Part 1](#), “**Healthcare Reform 101**,” which includes:

- A summary of the law itself
- Discussion of Congress' goals in passing the law
- Pharmacy stakeholders' reactions to the law
- APhA's role in shaping the law

> [View Part 2](#), “**Opportunities for the Pharmacist**,” which discusses provisions of the law that can increase the role of pharmacist in patient care:

- Medication Therapy Management
- Innovation in healthcare delivery systems
- Integrated care models

These videos, as well as additional installments in the series, can be accessed on the Government Affairs page of Pharmacist.com.

Boehringer Ingelheim Pharmaceuticals, Inc. supports the pharmacist's role in patient care with pharmacy-oriented resources for disease management, adherence, and more.
